<b>Comments</b>	<input type="text" value="The planned building works will significantly increase the noise for houses opposite the proposed tracks, such as mine. This will have a material impact on the saleability of houses in my road and consequently the sale value. Since moving into my house six years ago, the airfield has been virtually silent since it has been used almost exclusively by gliders. However, since the introduction of the racing that is going on now, this is very noisy. Tire screeching and engine noises are very unpleasant. I'm in no doubt this would be a commercially successful venture but it would cause irreparable damage to the quiet community of Caversfield."/>
