Case Officer Rebekah Morgan

Organisation Name Jennie Logan

Address 8 Montgomery Road,Caversfield,Bicester,OX27 8FG

Type of Comment Objection

Type neighbour

Comments Living next to the heritage centre area we already accomodate noise from regular aircraft, and events and experiences involving vehicles already. These events take place often and have a negative impact on us. I object to this application because it will create much more traffic which this area already suffers from and much more noise disruption than we already have. It would also cause a lot more air pollution and being next to the aircraft flight path and road already, we feel this is much more than other areas of Bicester have. It would cause a huge and very regular noise disruption to us which would impact us socially, mentally and our own businesses. We accomodate the current driving events at Bicester heritage but the noise from these is considerable, unpleasant and lengthy, especially on summer days when we all are outside or have our houses ventilating. We would be very disappointed if this noise was added to because we already accomodate a lot and do not want more. We do our fair share accommodating the current events impact to our local area. Another major factor is the drastic consequence to our local house pricing if this application goes ahead. It would really impact us financially for our house values. Please consider the thoughts of the local community and housing residents nearby. It would really negatively impact us in several ways.
