| Comments | <input type="text" value="I strongly object to this application. It will only serve to increase traffic congestion, air/ noise pollution for local people. Even now with just a small test trackn the noise of performance engines and screeching tyres can be heard INSIDE residents houses. The once quiet adjacent park, is only peaceful place for families on days when cars aren't be raced around the small track. These plans and the events that would accompany a successful application, provide minimal benefit to the local community but greatly increase disturbance, inconvenience and reduce quality of life."/> |
