<b>Comments</b>	<input type="text" value="I would like to object this application, as the prospect of 3 X test tracks, running 7 days a week, opposite a residential development (Caversfield) should not be accepted. There are already days when the noise inside my house from Bicester Heritage can be heard, and that's with windows and doors closed. Needless to say during the summer months this is practical. I work from home the majority of the week, so continual noise is a huge distraction and inconvenience. I know many others also work from home and there are also shift workers trying to sleep in the day after working all night. Finally many residents of Caversfield have lived here long before Bicester heritage arrived. What happens to those residents property values. Local residents need to be consulted and considered before granting yet more permission to Bicester Heritage."/>
