Comments	<input type="text" value="Whilst it is lovely to see the site developed and back in use for heritage vehicle testoration znd occasional events thete is increading dignificsnt regular noise from cars and low planes. when i bought my property tbe site was quiet with gliders. the noise from the site this summer made the garden unuseable on some days and working at home disrupted by noise. Traffic is horrendous on event days. This racing track seven days a week is totally unsuitable this close to private homes and will make it impossible to use our gardens, for shift workers to sleep and for those working at home. The noise will be disruptive , will add to traffic and devalue our properties."/>
