Comments	<input type="text" value="Caversfield is actually the closest rural village to the airfield, and particularly to the areas which this application relates. This application is likely to have a detrimental impact on the village in terms of both noise and traffic impact. The airfield is just that an airfield not a race track, when Bicester heritage bought the airfield was never any mention of the airfield being turned into a race track. It's one of the most complete grass airfield left in the country and this would destroy this. The traffic would also be a concern to me as it not got the best access to the site. Paul White"/>
