Comments	<input type="text" value="The noise from the heritage site when they are running events can be awful and can mean my husband can not work from home properly as he's unable to take part in phone calls and meetings due to the noise of cars, even with the windows closed. The noise will have a detrimental impact on the ability to comfortably live in our home. Even if we were neurotypical it would be unbearable but with neurodivergent children they will not cope with the noise. I do not believe anyone will want to live where we are where we can see the heritage site and will have the noise pollution. This will devalue our property. The ability to turn out of Thompson drive is impacted on event days and this will become unsafe with the new entrance and the extra traffic."/>
