<b>Comments</b>	<input type="text" value="Having been a resident of the village for 57 years and a business within the village of Stratton Audley for the last 12 years employing over fifteen people, we feel we have to raise a strong objection to the above planning application on the following grounds: The siting of the drift track on the most northerly part of the airfield would have a significant noise impact on the village and especially our own business which relies heavily on destination Ice cream venue and our self catering accommodation situated on our small diversified farm, which would only be three quarters of a mile from the proposed planning location. Consideration should be taken for the local community with regards to the environment, light and air pollution, increased traffic and of course noise which we understand will be most days!"/>
