Comments	<input type="text" value="We would like to express our formal objection to the proposed development. Since the pandemic, both my husband and myself now work from home permanently, including regular client calls; the proposed testing tracks and schedule (7 days a week) will make it impossible for us to take parts on calls being undisturbed without background noise as well as make it unbearable to simply enjoy our garden over the warmer months. We believe this development will be very detrimental for all neighbours of Caversfield and it would also devalue our houses as potential buyers will be less inclined to buy in this area due to the noise pollution because of the extreme close proximity to the village of Caversfield."/>
