Comments	<p>I object to the above planning application for the following reasons. The access to the proposed site is situated in a dangerous position. At school time there is bottleneck of traffic and children directly in the access of the site consisting of school children stepping out mindlessly into oncoming traffic, with parents parking on the double yellow lines blocking safe vision and reversing out of the junction to Wykham Place. It's already an accident waiting to happen. To add more traffic to this would be both unsafe and irresponsible. With reference to the soakaway issues, the public walkway adjoining the site boundary is already a flooded bog which would be undoubtedly worsened by concentrated rain water from guttering. The proposed plans have kitchen and bedroom windows AND balconies facing directly into our garden, with a clear view into our conservatory, kitchen and my son's bedroom window. There are NO trees or sheds as stated in the proposal to block the view. To have numerous strangers sitting on their balconies with no obstructed view whilst I'm working from home all day is a blatant invasion of privacy to me and my children. There will be nowhere I can sit in these areas without being in direct view. Whilst obtaining planning for our extension previously, we were denied a standard bedroom window at the back of our property following an objection from our then neighbour due to concerns over of loss of privacy as it faced into his garden. I'm assuming we will be granted the same level of consideration when this application is assessed.</p>
