<b>Comments</b>	<input type="text" value="I approve of the build, but the pedestrian and cycle paths need significant improvement. Rodney House roundabout is dangerous, with many accidents in the last year. The alternative route to London road via the underpass needs a proper path on both sides of the underpass to the proposed build. Also path / cycle access to Kingsmere would be vastly improved with an underpass under the railway. The potential of London Road rail crossing potential closure should also be considered as part of this application (to keep it open/provide bridge/underpass) to enable the population to access this new site."/>
