Comments	<input type="text" value="The proposed entry into the hub off of the already poorly designed and objected to Rodney House roundabout, will compound current high levels of traffic flow potentially causing more collisions. The entry road of Graven Hill Road will increase traffic into what has been sold as a village. This stretch of 20mph is already a speeding zone let alone with an increased amount of traffic. A route into the hub is needed without travelling through Graven Hill at all. The increase of traffic with residents traffic, school traffic and amenities traffic will potentially cause long term issues at the roundabout and will become a bottle neck at the entrance and exit of Graven Hill."/>
