| Address | <input type="text" value="10 Silibaravi Drive,Ambrosden,Bicester,OX25 2AX"/> |
| Type of Comment | <input type="text" value="Objection"/> |
| Type | <input type="text" value="neighbour"/> |
| Comments | <input type="text" value="Objected on the basis that the Rodney House Roundabout, and it's current design, in particular relating to the traffic flow to Graven Hill, is currently not fit for purpose with the current volume of traffic - additional traffic volume as a consequence of this proposed development will significantly increase the risk of more incidents at this roundabout - I therefore object unless the proposal includes significant modifications to make the roundabout safe and risk of further incidents are significantly reduced. Would it be possible to have a separate entrance/lane to divert the traffic?! Also concerned about the parking - there Will need to be enough staff parking and patient parking and temporary/emergency parking. As there is not enough for residents from the flats at present to my understanding . Clearly you will have thought of this but will need easy access for ambulances We need improved bicycle lanes to the practice from the roundabout too"/> |
