There is an opportunity here to enhance biodiversity by integrating Swift bricks within the structure of the building. I would suggest that 10 of these could be incorporated at appropriate heights in brick or stone walls of the building. This would accord with the Council's responsibility under Section 40 of the Natural Environment and Rural Communities (NERC) Act 2006, to 'have regard, so far as is consistent with the proper exercise of those functions, to the purpose of conserving biodiversity" variations="" well="" well-being="" when="" which="" wildlife="" will="" with="" worthwhile="" would="" years)=""/>
