Comments	<input type="text" value="I support this application in principle as I welcome a GP surgery with facilities not currently available in Bicester. I do, however, have concerns about the access to the site via the Rodney House Roundabout, which I believe is already not fit for purpose. Accidents are a common occurrence with the existing traffic flow. As a resident of Graven Hill, I am nervous every time I approach the roundabout as I have personally had several near misses. No doubt, the additional traffic volume as a consequence of this proposed development will significantly increase the risk of more incidents. The roundabout is also difficult to negotiate for pedestrians and cyclists with the crossing lights on occasion being ignored/missed by car drivers."/>
