Comments	Whilst I welcome the amendments made to this planning application I still believe that this is an unsuitable site for a development of this size and construction and still object to the application. The modern building materials proposed for the new build element are not in keeping with the existing heritage/listed buildings predominantly built of ironstone with slate roofing and will severely affect the look of a historic street in the heart of the village, and do not comply with BNP item BL11. The loss of parking at Stone Hill House if this development goes ahead has still not been addressed with no provision for new parking. This will only add pressure to the already limited parking used by people going to the shops. There is already a major problem with vehicles having to park on the pavement causing pedestrians to walk in the road. BNP item BL5 The extra traffic that will inevitably come with this proposed extension has also not been addressed, in particular how heavy construction vehicles are to be accommodated in this narrow lane without causing major disruption to neighbouring properties and obstruction to emergency vehicles. Whilst I understand the need for Bloxham School to expand their boarding capacity, I believe there must be more suitable sites available to them within their property portfolio in Bloxham.
