Comments	<input type="text" value="Unfortunately I have to strongly object to this planning application. Having thoroughly reviewed the proposal, the conclusion that Charlotte and Braeburn Avenues will be able to cope with the massive additional traffic generated is simply wrong: there aarea number or anomalies in the analysis, which create some serious errors in assumptions, and the problem of bottlenecks near the school has not even been considered (the school isnt at full capacity, and these are already getting worse each year): the impact on the local road network will be SEVERE, and unfortunately wholly unsustainable. For the existing community and the future community, the issues need to be revisited, and a new plan thought out."/>
