| Comments | <input type="text" value="As a member of the Elmsbrook community. I strongly object to the access planned for this development. The level of traffic coming onto Elmsbrook roads - Braeburn and Charlotte Avenues, will be considerably increased and at both access points, there is a deliberate and planned minimising of traffic flow. It appears that the analysis undertaken by the developers has badly miscalculated the impact on the existing residents on all phases of Elmsbrook. The school area outside Gagle Brook will also be adversely affected. There is already a bottleneck there. The overall plans for the new development look encouraging but the traffic planning and access is really worrying. I strongly object and hope that you will refuse their planning application on 2nd July. Other access needs to be found."/> |
