Comments	<input type="text" value="I'm objecting to the lack of provisions for additional access to the proposed site with just Charlotte Avenue and Braeburn Drive being the main points of entry. With the Gagle brook school filling up we're going to get a lot more cars coming in and out of the estate at the peak school times causing potential congestion. Increased works traffic coming in and out of the main roads will also cause a lot more disruption to those living along those roads. The roads are still not finished properly in phase 3 with no sign of when it will be and there are many instances where works traffic and sewer works have blocked off one of the roads which would cause even greater pressure on the other. The residents of the Elmsbrook development pay a service charge for the upkeep of the estate so will these new developments also contribute to this as they will be using it as a thoroughfare?"/>
