Address	<input type="text" value="2 Wintergreen Fields,Bicester,OX27 8BG"/>
Type of Comment	<input type="text" value="Objection"/>
Type	<input type="text" value="neighbour"/>
Comments	<input type="text" value="My objection is Under the current plans all traffic to the new homes will use the existing estate roads, this could mean an additional 1000+ vehicles travelling along Charlotte Avenue and Braeburn Avenue daily. I have major concerns that the estate roads will not cope with the additional traffic and that the traffic model used by the developers is out of date and has underestimated potential traffic movements through Elmsbrook. As elmsbrook residents we are paying for the maintenance and abs up keeping of the development if our access roads are being used then this will add traffic to us as residents which is not practical and why should we only pay for the upkeep if our development? The proposed development should have their own access roads and utilise these , to ensure safety id the number of vehicles going through the developments and don't add to existing traffic ."/>
