Comments	<input type="text" value="- Proposed development is not an eco development; - Charlotte avenue is not wide enough for unavoidable increase in number of cars; - New developer should look for other routes out of the proposed housing estate and not through the existing development. - The increase of cars will be unsafe for elmsbrook children who like to ride bikes in the estate. - Our vision is for elmsbrook to be a community where children can safely play outside where neighbours knows each other. We understand that it is unavoidable for new development to be built but they should create their own entrance and exit. - Proposed housing are too high at the borders to the Charlotte way (16 metres). It will cover the light for our house and should be moved deeper into development."/>
