<b>Comments</b>	<input type="text" value="I would like to strongly Object to this planning application. The conclusion made that both Charlotte and Braeburn Avenues will be able to cope with the significant additional traffic generated by these plans is completely flawed and has been assessed in what appears to be a lacklustre way. There are errors/anomalies in the analysis, and the problem of bottlenecks near the school is not even considered and these are already proving to be problematic and the impact on the local road network could be extremely detrimental to the area. This is particularly concerning for what is Bicester's first Eco area an estate I purposely chose for environmental reasons, open spaces and low traffic volumes. These plans appear to rip up the model of protecting the environment."/>
