Dear Caroline,

I would like to strongly Object to this planning application: the conclusion that Charlotte and Braeburn Avenues will be able to cope with the massive additional traffic generated is simply wrong: there are errors/anomalies in the analysis, and the problem of bottlenecks near the school is not even considered (these are getting worse each year): the impact on the local road network will be SEVERE and will strongly impact the community. At certain times of the day it's already congested.

Kind regards,

Rita Luis
