Even now where we are only a few phases in there is congestion on the access roads (Charlotte Avenue and Braeburn Avenue), a way of preventing more congestion is to build more access roads and not just relying on the ones we have currently. Traffic congestion can lead to an increase of fuel consumption (most people still own petrol and diesel vehicles), which doesn't match Elmsbrook's Eco ethos. Could we have cycle lanes please? Is Firethorn going to be using the energy centre? I agree with Elmsbrook Community Organisation's point that " wasteful="" we="" what="" will="" with="" won't="" would=""/>
