Comments	<input type="text" value="I object to this planning permission application as I do not believe that our road network in Elmsbrook can withstand the amount of cars that this new development brings. On an environmental level, this new development is not in keeping with Elmsbrook's ethos and this would completely devalue and take away from our community. It is one of the reasons why people choose to live and move to Elmsbrook, this new development would hinder all progress made by our development. Also the height of buildings in the proposed development is worrying. Not only would this be damaging to the nature and the surroundings but it also would completely juxtapose Elmsbrook. The proposal includes building up to/over 12m tall, yet there are none in the Ecotown masterplan which has a 12m max height."/>
