Comments	<input type="text" value="This application is not in line with the Cherwell NW Bicester master plan that invites zero carbon development. The application seems to be getting worse on environmental grounds not better. This is so crucial in view of all the research around global warming. Feel very concerned. Also as an Elmsbrook resident the traffic plans and calculations are way out and unsustainable in terms of road use etc. please refuse this application and be firm with firethorn that they need to comply with what Cherwell and neighbouring elmsbrook require. Zero carbon housing and sensible traffic planning. Thanks"/>
