Comments	<input type="text" value="These are non ECO homes being built on a ECO development , breaking the Principles of ECO town design and living . There is a huge concern for severe traffic impact increasing and it's totally unfair for current residents to be flooded with an extra 530 homes and drivers through Charlotte avenue and Braeburn which is the main access roads to and from the development . There has been no evidence provided to explain the impact on the district heating system as well ."/>
