

Comment for planning application 21/01911/F

Application Number	<input type="text" value="21/01911/F"/>
Location	<input type="text" value="Cotefield Business Park Oxford Road Bodicote OX15 4AQ"/>
Proposal	<input type="text" value="Increase the existing dust extraction unit height by 1.35m to allow for a small silo to sit under the extraction unit in place of the current 40 cubic yard skip as per the granted planning permissions - 20/01581/F and 20/02879/NMA. Install a heater with flue to burn waste"/>
Case Officer	<input type="text" value="Bob Neville"/>
Organisation Name	<input type="text" value="Flynn"/>
Address	<input type="text" value="1 Seedling Road, Bodicote, Banbury, OX15 4UB"/>
Type of Comment	<input type="text" value="Comment"/>
Type	<input type="text" value="neighbour"/>
Comments	<input type="text" value="As a resident of the houses nearest to this site I am raising concerns over the part of the planning to burn waste please can details be made available to the public about the type of burning that will take place. Will it impact the environment? Cause health problems to residents? Will the burning affect the air around the area visually and sensually? There are children and elderly alike and depending on how and what is being burnt will have a daily impact on lives? Visually will there be smoke coming of of the flue? Is the quantity of waste large? Likely to increase over time? What is the purpose for the burning of waste? Will it cause nose pollution? How will it be maintained? Will the size of it have a physical impact on the environment be seen from the tree line? Many thanks"/>
