**2nd Coat:** External root to 250mm above ground level  
 Dacrylate Epoxy 2-Glass Reinforced 2-Pack Epoxy, ref 73-489, Brush/Airless Spray, Minimum Dry Film Thickness 200 microns.

**3rd Coat:** External overall  
 Dacrylate Dacsil 200 2-Pack Polysiloxane Finish RAL 6013 (or other specified colour.)  
 200 - line, Conventional Spray, Minimum Dry Film Thickness 75 microns.

Additional notes:

- Columns to be sited at the rear of footpath and within adoptable area.
- Positions are approximate. The Local Authority Engineer reserves the right to alter positions depending on site conditions.
- All equipment shall comply with the Oxfordshire County Council General Technical Specification.
- The Contractor shall obtain samples of the paint and technical Data Sheets from the Manufacturers prior to commencement of work.
- In order to assist the developer, OCC will mark out all of the column positions.
- All Street Lighting works must be carried out by a Highway Electrical Association Registered Contractor.
- All columns to be numbered two metres from ground level.
- Electrical Supply to Street Lighting Columns and Illuminated Signs are to be serviced / owned by the local Distribution Network Operator (i.e. Regional Electricity Company).
- The 'A file reference number' which is on the drawing, is to be quoted in all correspondence.
- No trees are to be planted within ten metres longitudinal of a column.

NB: Touch up on site using 2 Pack paints applied by brush will never offer the same appearance as that of a spray applied finish. For this reason every effort should be made to minimize handling / transportation damage.
