Good afternoon Planning team
Thank you for your email consultation on the reserved matters application 21/02180/REM
From the details submitted to support the planning application the proposed method of surface water management does not relate to Anglian Water. As such, we are unable to provide comments on the suitability of the surface water management. The applicant and the Local Planning Authority should seek the advice of the Lead Local Flood Authority, as they are the statutory consultee for surface water management, and the Internal Drainage Board if applicable. The Environment Agency should be also consulted if the drainage system directly or indirectly involves the discharge of water into a Main River

Kind Regards
