Comments	I do not object as I do not mind the idea of this and it would be handy to have across the road. However I am concerned about the additional traffic that it would bring, it is so dangerous already turning out of Vulcan View, the visibility is poor and cars come speeding off the roundabout not knowing that there is a turning, I am concerned that with the addition of this, it will create more cars on Skimmindish lane. Please consider some additional measures in regards to our street, I.e. does the speed limit need to be reduced? Or traffic lights? So that we can turn out of the road safely, this new addition near to our street is going to make it more dangerous to turn off our road and there is high risk of an accident.
