Comments	<p>This looks another fantastic piece of scrub habitat, now valued even higher than closed woodland for wildlife. We are loosing this habitat from every corner of town with another run cleared for Bicester heritage expansion. You have an industrial estate opposite and further into town I suggest you use it. Even the farmers fields are better dug up that this great but of woodland. There is a term for this blindness to value of unmanaged land, ecological tidiness disorder. Embarrassingly dated view on value of land . CDC landscape and ecological departments need to go on some CPD. Gov has announced climate and biodiversity emergency. Stopbcontributing to it.</p>
