Comments	<p>This is just plain silly! We have over 27 empty units down our high street, it doesn't make logical sense to keep building commercial property when there is so much left standing empty, fill the units that exist first, re organise our shocking high street and make it fit for modern life and then look at expanding our commercial building offering. On a second point that roundabout is already far too busy with far to smaller gap between exits as it is, and before you say traffic lights will solve that problem, no they won't we are not America and we don't need lights to tell us when to use a roundabout, just don't overload the roundabout with exits, sticking lights on it is like sticking a plaster over a problem, how about don't create the problem in the first place!!!</p>
