Comments	This is a much needed green space in Bicester. We have to preserve these green spaces not build on them. Wildlife need these spaces. Eco town? Nothing like. Garden town? Nothing like. This type of place should be off the A41 near the M40 not in the middle of town. The whole idea of a drive thru is that it is accessed by drivers (hence why they are normally out of town). A drive thru in this area will cause more pollution near to housing.
