<b>Comments</b>	<input type="text" value="This development was granted permission on the back of a combination of apathy, greed and ignorance - including the abuse of process that was let to happen by the Council, and in particular the case officer, that have failed the existing and future occupants of this village by thwarting due process - including the requirement to put up due and proper notice at site when it was supposed to be there. My objection remains and now applies to any changes sought to the original hugely flawed original application process. When the road traffic accidents start who will accept the inevitable and much earned blame I wonder? Sincerely yours Fraser McGee"/>
