Transport Development Control

Recommendation:

Condition 4 (Means of access) - No objection

Condition 5 (Turning area details) - No objection

Condition 6 (Drainage) - No comment

Condition 9 (CEMP) - No objection

Detailed comments:

Condition 4 - Since our previous response to application no. 20/02139/F, it has become clear that the means of access to the site should be fully LTN1/20 compliant. This entails a fully segregated cycle/pedestrian path along the frontage of the site including a 3m wide cycle path, 2m wide footpath and fully set back crossing facility. The applicant has submitted updated drawings which show an LTN1/20 compliant solution to the access.

The ghost right turn lane has been removed. On balance, the benefits to cyclists and pedestrians were considered to outweigh any potential disruptions to the flow of traffic which remain unlikely. The proposals are now considered LTN1/20 compliant and as such, OCC do not object to the discharge of condition 4 (means of access)

Condition 5 - The submitted tracking diagrams show an articulated vehicle safely entering and exiting the site.
