23<sup>rd</sup> August 2021

Dear Sir,

**APPLICATION NO 21/02417/F Blue Cedar Homes**

**You have declared that the decision on this application will be made at the end of the month. Blue Cedar Homes obviously think they are beyond your Juris Diction as they started work last week.**

**In the hours of darkness illuminated by arc Lights they worked on the trees to the north of the site, much damage was inflicted. Why they needed to work in the dark I do not know or what they had to hide. A member of the public tells me he complained about the noise but was insultingly told to go away.**

**The road safety was also challenged.**

**The only entrance to the site is through a private lane part owned by me. My permission was not sought.**

**I cannot believe the County Council gave permission for the wholesale work on the verge nor you on the mature trees on the north of the site before your Judgement. You should at least visit the site to see the awful mess.**

**I would like to believe that a summons would result for this blatant example of ignoring the Council's authority. Must private persons take legal action for the noise and activity of unauthorised work at night for action mustS be taken.**

Yours faithfully,

  
Sir Frank Davies.
