Comments	<input type="text" value="The proposed development will further the damage the landscape to the east of Banbury. No consideration in the planning has been given to minimising the impact on the landscape, or attempting to blend in with it. The development will increase air pollution, increase visual pollution, and increase noise pollution. No consideration for supporting wildlife had been included in the proposals. The development offers no benefits to the local communities on the eastern side of the M40. There will be added congestion increasing journey times for existing and future residents on the eastern side of the M40. It is now clear what a big mistake it was to allow the new warehouse to be built, and to further expand the development damages the appeal of Banbury as a destination by removing the sightlines to its surrounding countryside."/>
