Comments	<input type="text" value="This application is very similar in a previous application for motorway services at J11 of the M40. with the additional HGV and LGV traffic which will be caused by the new bakery distribution warehouse the local road infrastructure cannot support the added volumes of traffic which will be caused by a 240-bed hotel, a four-storey office building and its occupants, drive through services and a fuel filling station. There is no need for this as Banbury already has plenty of these services within 5 minutes of J11"/>
