Comments	<input type="text" value="Recently, when walking in Banbury's 'country park' opposite Marks and Spencer I actually felt ashamed of living here. Two people had decided to visit the area to explore the country park and thought it laughable that it could actually be called that. Banbury is already the joke of Oxfordshire for many reasons - we want to be proud to live here - not ashamed. The monstrosities running alongside the motorway are nothing short of shameful. Building more and more of these unnecessary buildings only downgrades the area further. This is not a development that's wanted or needed by anyone in this area - surely as public servants the council's role is to listen to what the public want - so please do not allow this build. Nobody want this development - we just don't see the point. Eventually voters will choose 'leaders' that listen and are against mass development. At a time when the planet is facing extreme threats due to global warming, there is certainly no justification for putting any building up that's not wanted or needed. Please do your utmost to ensure this build does not happen - it is your responsibility to do so. Before the area and our beautiful villages are completely swallowed up by warehouses."/>
