Organisation	<input type="text" value=""/>
Name	<input type="text" value="Rebecca Calverley"/>
Address	<input type="text" value="44 Canterbury Close,Banbury,OX16 4FF"/>
Type of Comment	<input type="text" value="Objection"/>
Type	<input type="text" value="neighbour"/>
Comments	<input type="text" value="Ermont way is already a traffic hot spot with hgv lorries and cars 24/7. The congestion and pollution is not acceptable at present let alone if this new development comes in. A new by-pass or new roads are required to manage the increase in traffic to this site. Presesdrian bridges not traffic lights are needed to keep the flow of traffic. I thought we are aiming for zero emissions so why build developments which will increase traffic and we have to drive/bus to get there? Build hotels and shops in the town centre and redevelop brown sites please. If we have to shop outside of town make the town center residential! Think about 20 years time when the population and cars on the road will be double what they are now! Plan better/wider roads first before developing green sites."/>
