Comments	I am a resident of Middleton Cheney and if you are considering the application then you will know it is a village roughly 1 to 2 miles from the jct 11 so i know all the facilities that are in place already. There are 2 costas, a miller and carter, 2 macdonalds. Less than half a mile from the junction 11. 2 premier inns, one of which has just opened this week in Banbury. The one that opened this week is situated in the town centre and Banbury town council want people to spend money in the shops and restaurants in the town centre. Also there is empty office buildings in Banbury town, these need to be used. Extra offices are not needed. There are also plenty of fuel stations if people need to fill up less than a mile from the junction. To me this is the same group planning and one has been built up north i believe. There is Warwick services and Junction 10 services, which is huge. Services on the M40. If new services are needed to require all the facilities and the A361 is single carriageway coming down to the roundabout. The wildlife habitat would be hindered and there is a canal close by This is an idea by people that just want to build for really no reason, other than the obvious.
