Comments	<input type="text" value="When the adopted local plan was developed this site was controversial and was only accepted because it had the opportunity to deliver a site for highly skilled engineering. The reality is that further low density, low employment warehousing has since been permitted. I object once again to the proposal for a service station in this location as it will have a detrimental effect on Banbury causing even further highways issues in a location already massively under pressure. The reasons for its refusal four years ago still remain, ultimately this facility offers nothing to the town of Banbury except more pressure on its transport infrastructure."/>
