Comments	<input type="text" value="There are two large hotels already in Banbury, one less than a mile from the proposed site. In addition to a petrol station in and drive through coffee shop located in the same area. The access road is already congested at busy times and is in constant use by HS2 traffic. This will cause yet more congestion to an already over stretched infrastructure. It will not bring any skilled employment to the area. just low skilled warehouse and retail work. There has been no consideration for the surrounding villages that have to get to the M40 or in to Banbury to work. The added pressure will certainly impact on working families in the area that rely on the cars (as bus services have diminished) to get to work and schools. I think this is a badly located development . I strongly object"/>
