<b>Comments</b>	<input type="text" value="This application has already been denied so I will state the same reasons as to why it would be a disaster for the town. Traffic is the major issue junction 11 is already congested and at times takes hours to get over. The A361 is our bus route and we have to fight for this because of the extra time the bus already spends in traffic, this is a lifeline to many people. There is no need for another service station as there are more than sufficient to service the motorway and they have their own access roads and will not be using an existing exit and entrance. There is already a cycle route so they are not doing anyone a favour. There are already plenty of drive through food facilities which incidentally cause their own traffic problems not to mention the litter strewn everywhere. A hotel has just been built in the town centre so the need for another is questionable. The Frontier Park site plus the extra HS2 traffic will bring Junction 11 to a halt. It's not good for the town or the surrounding villages, anyone who has to travel to or from town from the East side of town will have massive delays. We see no benefits whatsoever in this type of development."/>
