<b>Comments</b>	<input type="text" value="1. The area on East side of the motorway was originally intended for development to provide further high quality jobs in advanced engineering in Banbury. If there is to be development on this side of the motorway, this is what it should be for. The current proposal does not have the potential for any such jobs and instead provides services which are already available just off Junction 11 or at neighbouring junctions. 2. The pressure of traffic at Junction 11 and the downstream impact on Hennef Way is already detrimental to business and travel for many in Banbury. The addition of a service station on this site will exacerbate this problem."/>
