Dear Richard,

Re: Discharge of Condition 44 of 14/01983/OUT: Confirmation of funds for archiving

We have liaised with Oxford Archaeology regarding the further actions detailed within the approved Post-Excavation Assessment, which we understand are required to complete the agreed scope of archaeological investigations. Such works include publication of the results in an appropriate journal and archiving of the recovered material and written site records. A total fund of £32,805 + VAT has been agreed with Oxford Archaeology and has been made available to them to ensure that these further actions are completed.

I trust this letter is sufficient for you to now recommend to Linda Griffiths that Condition 44 can now be discharged.

Yours sincerely,

Ian Hardwick
Managing Director
