Address	<input type="text" value="55 Beckdale Close,Bicester,OX26 2GT"/>
Type of Comment	<input type="text" value="Objection"/>
Type	<input type="text" value="neighbour"/>
Comments	<input type="text" value="We live at number 55 beckdale close and strongly oppose the next phase of development, we have long been led to believe we were getting residential buildings behind us, units 6-10 on the current plans will be extremely close to our property and will tower over our garden, there will literally be just a road width between us and a huge grey building, which is likely to have a very detrimental effect on ours and our neighbours lives, with blocking our natural light plus light pollution and a huge increase in noise, even though this is only in the consultation stage it is already having an effect on our mental health with the real worry of what is to come as not only the reasons above but also the prospect of having our property value destroyed, I strongly urge a rethink of the current plans, I understand Bicester is a growing town but we need more residential property's not more empty warehouses blighting our lives, many of us that will be affected have young children who love playing in the gardens which will now be hugely overlooked by huge soulless buildings towering over them with greatly added pollution from the extra vehicles, we are really scared that life is soon to become a living nightmare, we moved to the beautiful town of Bicester to escape the pollution and industry of a big city only to find we are likely to be living in the shadow of a huge noisy set of buildings, once again I strongly urge you to re think building so close to long existing residential property's"/>
