Comments	<input type="text" value="How can this planning application ever be considered. It was only originally for housing then got twisted around as to allow a monstrosity of an industrial site, with housing (to appease the council) And now they want to move the goal posts yet again. isn't it about time Bicester town and county council grew a back bone and stood up to these people its affordable housing that is needed. Before this application is even considered Howes lane realignment should be the top priority for the residents who's lives are being affected."/>
