Type of Comment	<input type="text" value="Objection"/>
Type	<input type="text" value="neighbour"/>
Comments	<input type="text" value="I strongly object, The construction of a warehouse in this area puts my home far too close to an industrial area. Already traffic and heavy goods in and out make it hard to safely leave Bicester from my home either by cycle or by car. the proposed additional warehouse would increase this danger, The roads are not suitable for the volume and type of traffic. In addition, green spaces are part of the charm of Bicester moving more concrete and metal structures so close ruins the aesthetic and charm of the town for me. The cost of living in the area would seem to me to remove warehouse workers being employed locally, meaning in addition to traffic for heavy goods we'd have to have an influx of commuter traffic into the town to support some unneeded warehouses. Large buildings such as the proposed warehouses would dwarf the small residential buildings in its vicinity creating the stark image of a dystopian nightmare i hope never to live in. Please reconsider putting in local shops and green spaces instead of trying to turn this into more soulless profit driven nonsense."/>
